Assurance, **not insurance**

Far too often the words insurance and healthcare are interchanged when in fact they have little in common.

We see healthcare as the act of providing health and wellness, and the essence of giving assurance that a person has convenient and affordable care whenever they need it.

Furthermore, we look to provide care that fills the gap left by insurance programs that no longer provide affordable access for the day to day needs of basic health and mental wellness related events.

BasiCarePlus[®]

Basic Healthcare In The Moment

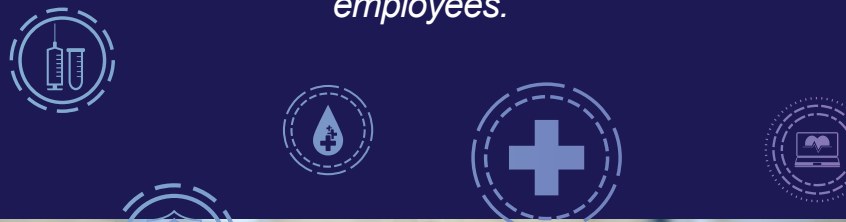

Program Overview

At BasiCarePlus, we focus on the day-to-day needs of acute care access, counseling and primary care management for families including medications for acute care, mental wellness and chronic.

Our programs include a family of nine, national networks, zero cost access and a single application for a low monthly membership fee.

Who We Serve

Our clients use BasiCare Plus® to round out existing healthcare benefits or to provide basic need access for uninsured employees.

What Our Customers Have Shared

T E S T I M O N I A L S

“I am a benefits consultant that presents and promotes BasiCare Plus products to all my clients. BasiCare Plus is easy to work with, delivers true value and provides our customers with the most value that very little money can buy. Customer support during and after the sale is phenomenal.”

Brian Dugin
Dayton, OH

I have had no health care insurance for 2 years and really love having this service. We have used the program twice this year for an ear infection and for a toothache. Both times I was talking with a doctor in just a few minutes I had no charge at CVS. Thank you!

Loretta
Dayton, OH

“Just got my benefit activated not even a month ago and it’s been so easy to call in and ask simple questions. I get everything I need over the phone it’s been truly a blessing to not have to go in and wait at the doctor’s office and risk getting sicker.”

Kayla Huvler
Indianapolis, IN

“Purchased our family benefit online. We have a share program for our family healthcare but no urgent or primary care service. We are a generally healthy family but now have annual wellness and urgent care any time. It is great value.”
